## MAY ASK FOR NEW S. T. C. GYMNASIUM

BOARD OF REGENTS DISCUSSING APPROPRIATION

### CLASS ROOMS NEEDED

Girls Dormitory Will Be Open Jan. 1 —A Charge of $45 a quarter Will Be Asked

The board of regents of the State Teachers College is in Maryville today discussing several matters of importance and to attend the Maryville-Tarkio football game.

Three matters of importance were the cause of this meeting. The first was a discussion of the appropriation for the College for the next two years, the second to set the exact date for the opening of the new Girls' Dormitory at the College. This matter was discussed in connection with the matter of the rates for rooms in the dormitory.

President Uel W. Lamkin of the College presented to the board a recommendation to the fact that owing to the growth of the College additional classrooms will have to be added. He said that it would be possible to place the entire manual arts department in what is now the gymnasiums of the College. This would necessitate the building of a new gymnasium. If this were done it would likely be in a separate building from the rest of the College and would be used exclusively as a gymnasium.

The new dormitory will be ready for occupancy January 1, it was thought at this time. The first students applying for rooms will be given places. A room with dinner will be $45 per quarter or $4.50 a week. Of this amount, a payment of $10 down will be required. For breakfast and luncheon, it is expected to have a cafeteria at which a charge will be made.

All of the members of the board were unable to come to Maryville. Those who are here are Charles F. Ward of Plattsburg, Charles L. Mosley of Stanberry, George J. Stevenson of Tarkio and W. A. Blagg of Maryville. Those unable to come were True D. Parr of Hamilton, B. G. Voorhees of St. Joseph, and Sam A. Baker, State Superintendent of Schools.

Special to Democrat-Forum.

Casper, Wyo., Nov. 20.—Henry Hawk, arrested in Casper under the name of W. C. Conway two weeks after he had been shot through the body and charged with complicity in auto thefts here, was removed from the hospital to the jail today, practically recovered from the bullet wound.

Hawk faces trial in the United States district court at Cheyenne.

Henry Hawk of Maryville was claimed to be one of the heads of a great gang of automobile thieves with headquarters at Casper. The following story about the wounding of Hawk and the breaking up of the gang is taken from a Denver newspaper of a week ago:

"Henry Hawk, alias W. C. Conway, said by officers to be one of the most reckless of the gang, was mysteriously shot two weeks ago in the vicinity of Casper. According to the officers, Hawk was in an automobile when he was shot, and, with much cursing, told his companions to throw him in a ditch anywhere and let him die, but to save themselves at any cost.

"For ten days, officers said, he would not go to a doctor to have the wound dressed and later, in the jail, his condition became critical and he was removed to a hospital under guard. His recovery is considered doubtful."

Hawk served a term in the penitentiary, having been sent up for grand larceny from Worth County. His term was out last summer. He visited in Maryville several days after his release and then went on out West.

## HALF OF COLLEGE CREDIT MAY BE NON-RESIDENT WORK

Important Agreement Made by State Educational Institutions at Meeting in Kansas City.

An important agreement was made at Kansas City last week during the teachers meeting in regard to the amount of non-resident work that will be acceptable to the state educational institutions. The presidents of the State Teachers Colleges met with representatives of the University of Missouri in Kansas City and decided that they would accept for a degree, fifty per cent of the credit from non-resident work. The present ruling permits only twenty per cent of the credits to be obtained by non-resident work.

This will necessitate more work and possibly a larger faculty for the handling of the extension and correspondence work. The State Teachers College here had a great amount of extension work last year and the demands this year are making heavy inroads upon the time of the present faculty.

The idea of "taking education to the people" has been gaining in favor over the country. Northwestern University was one of the first big colleges to allow half of the credit work to be by extension or correspondence.

## BOTH PARTIES PLEASED AT ACTION

SENATOR NEWBERRY SENT IN RESIGNATION YESTERDAY.

### ENDS A HARD STRUGGLE

Efforts Were to Have Been Made Today at Opening of Congress to Renew Fight

Washington, Nov. 20—The resignation of Truman H. Newberry, senator from Michigan, the storm center of that has swept congress for years, has pleased both Democrats and Republicans alike. The Democrats were satisfied as it ended a four years struggle to oust him. The Republicans were satisfied "because it ended the famous Newberry case," ending their political embarrassment.

The resignation coming on the eve of the reopening of congress forestall renewed efforts to unseat Newberry to have begun by Senator La Follette of Wisconsin and Senator Caraway of Arkansas. Both had resolutions ready to be introduced today. Senator La Follette said:

"It is ended as far as Newberry is concerned but the issues are not dead. The Newberry case will be a political issue as long as men who voted for him are in power."

For the next few days Democrats will talk about the recent election that compelled Newberry to resign.

Washington, Nov. 20—Truman H. Newberry of Michigan, whose right to a place in the senate has long been a subject of controversy, has submitted his resignation with a request that it become effective immediately.

In a letter to Governor Groesbeck, made public here last night, Mr. Newberry said he had been impelled to retire voluntarily because of the defeat of his Republican colleague, Senator Townsend, in the election November 7. The turn of events he said would make it "futile" for him to attempt to continue his public service since he continually would be "hampered by partisan political persecution."

Reviewing the outstanding features of the controversaries which grew out of his election four years ago over Henry Ford, his Democratic opponent he declared his right to a seat in the senate had been "fully confirmed." He added it, in the future, there seemed to be opportunities for public service, he would not hesitate to offer himself to his state and country.

The resignation brings to an end a fight which already has made political history and which it appeared would be resumed early in the session of congress which begins tomorrow. Convicted in Michigan of a conspiracy to violate election laws, Senator Newberry appealed to the supreme court which declared unconstitutional the statute under which he was accused.

The senate, after a long investigation, finally confirmed his title to a seat by a margin of five votes. In the campaign just closed the case was an issue in many states.

A copy of the letter of resignation sent to Governor Groesbeck was delivered today to Vice-president Coolidge by Walter R. Dorsey, Mr. Newberry's secretary. Mr. Newberry is at his home in Detroit.

### THE GREAT DEMOCRATIC GAME.

Baseball claims to be the national game, yet it is a sport requiring a great deal of money and organization to play it on an adequate scale. Many who would like to play baseball are able to enjoy the game only as spectators. But as winter comes on we are reminded of another game that is both national and democratic.

The one great democratic sport that has persisted since early antiquity, is that of checkers. Attention has again been called to it by the annual American checkers tournament, in which Asa Long, an 18 year old school boy from Toledo, Ohio, defeated the former champion of England and Scotland.

Various games with playing cards become society fads and then fall into disuse. But the checker board is a fixture of home and club life that has outlived many competitors.

In the humblest home in the lowliest hang-out the worn and soiled old checker board is dug out, supplied with the traditional pieces for a few small coins, and the same old combat begins, with infinite variations and unlimited chance for new and conquering strategy. It is the most democratic sport in America, since it costs practically nothing and can be played anywhere in the home or in the rear of the corner grocery.

The typical old time work shop was a favorite place for checker games. The old fashioned "hands" would pull it out daily at noon time, while local champions met in battle and the fans applauded their moves. Noted checker players used to meet in battle at livery stables and grocery stores. Today the game is not conspicuous in the public news. But you constantly find people playing it, exercising their wits and creating a capacity for laying plans and forseeing developments. It is a splendidly clean game and requires no money stake to make it interesting. Boys who play checkers well usually grow up into good citizens, who know how to manage their affairs and are not attracted by the world's temptations and follies.

### FIRST CALL FOR CHRISTMAS.

Long distance travelers frequently feel indifferent when the dusky waiter comes through the car calling out "first call for dinner." They are not hungry and are sure they can get places in the diner later. So they wait on awhile. Aroused by the second call, they bestir themselves and plunge through the swaying train, and find that the seats are all taken. They have to stand for some time until the more farsighted people finish their leisurely meal and yield their places.

So it is in the first call for holiday buying. Those who postpone action have cause to regret the delay. There will never be a better time than now for buying Christmas and holiday and winter stuff.

The stores of Maryville are stocked up with a lot of fine goods. They are fresh, assortments are full, they have not been picked over. Prices will be no lower, and may go higher before the holidays.

Furthermore now is a more comfortable time to do shopping. Later when the stores are crowded with buyers, it will be hard to get the attention of the salespeople. They can not stop and talk with you about goods, when they have numerous customers waiting.

The tendency of people to crowd into stores during the two weeks preceding Christmas is an absurd habit. It makes the distribution of goods cost more, because many stores have to put on extra help at that time to take care of the rush. If the trade could be distributed over six weeks instead of two, sales expenses would be lower and goods would cost less. Late buying of Christmas gifts is a nuisance for store clerks, postal and express employes and truckmen. Sensible and kind hearted people should "come early and avoid the rush."

Indiana has been considered a wet state but it refused to take Beveridge on last election day.

A publicity agent undertakes to claim the right to hug a female client because he is acting as her press agent.

If Governor Smith of New York runs for President and gets the whole Smith family, he will need only a few more votes to put him over.

Absent mindedness is rather common in some form but the fellow who went to St. Louis, forgot where he left his wife and then actually forgot where he checked his automobile is to be pitied.

Miss Alice Robertson of Oklahoma, who was a restaurant proprietor before she became a Congresswoman, may have been an expert pie maker but she evidently did not distribute it judiciously as she was bodly beaten in the last election. There is more in giving out political pie than in making it.

The reaction against socialism and communism has set in, Italy leading the way. There are numerous signs in other countries of a popular revelsim from the theories and practice of the "reds." And it is not the first time that practice and experience have upset the vagaries of theorists and wild dreamers. Blessed is the people who can keep its feet on the grounds and its brains on a line of intelligent "visibility."—Hannibal Courier-Post.

### DEMOCRATS ELECTED 83 AND REPUBLICANS 67 HOUSE MEMBERS

Jefferson City, Mo., Nov. 20—Democrats elected 83 and the Republicans 67 members of the House of Missouri General Assembly, according to a list of members-elect compiled from unofficial sources by Secretary of State Becker.

This gives the Democrats 7 more than a constitutional majority, which is 76. The House of the Fifty-second General Assembly, to which members were elected at the recent election, will be composed of 150 members, that being eight more than the membership of previous houses. The increase was due to a reapportionment measure passed by the Legislature two years ago which added three to the membership from St. Louis, four in Jackson County and one each in St. Louis and Greene counties, Buchanan, which had four, lost one in the reapportionment.

Democrats also wrested control of the State Senate from the Republicans, who captured it in the landslide of 1920. The Democrats will have 19 and the Republicans 15 State Senators. Democrats have one more than a bare constitutional majority in that body.

# SETS AN EDUCATION WEEK FOR DEC. 3-9

PRESIDENT, IN PROCLAMATION, ASKS FOR OBSERVANCE

## ASKS GOVERNORS' AID

"The Strength and Security of the Nation Rests in the Intelligent Body of Its People"

Washington, Nov. 20—President Harding in a proclamation made public yesterday at the White House, sets aside the week of December 3 to 9 as American Education week. He recommended to the appropriate national state and local authorities that they give their cordial support and co-operation. He called upon parents to enlist in behalf of closer understanding between the school and the house. The text of the proclamation, in part, follows:

"The ideals of democratic government and democratic education were planted simultaneously in our country. The fathers rightly believed that only a people trained to vision of public needs and duties could develop and maintain the institutions of popular government. The institutions of popular government. The system of universal education established in the beginning has become one of the characteristic features of our life. In it, we have laid the foundation of that system of American culture which has enabled us to absorb and assimilate millions who have come to us from many countries, bringing the traditions of widely varying institutions.

### Asks Governors' Aid

In order that we may keep in mind the need constantly to improve our educational system, it is proposed that the week of December 3 to 9, inclusive be set aside for special observance as American Education week. It is recommended to the governors of the states that they co-operate with the educational and civil authorities of their commonwealths to make the week a period for revival of interest in the broad work of national educational education.

"It is gratifying to know that in a time when public burdens have lain very heavy upon the people everywhere, there has been a determined purpose to maintain education unimpaired, in order that the coming generation might be equipped, regardless of sacrifices in the present, for the increasing responsibilities it must bear.

### "Perish Without Vision"

"Without vision the people perish.

"Without education there can be little vision. Of education it may be said it is twice blest; it blesses him that gives and him that takes. It will be worthe the effort if, as an incident to the observance of education week, we can impress this thought upon the young manhood and womanhood of the nation and re-direct their interest and patriotic zeal to the idea of making a proper contribution to educational work.

"The strength and security of the nation always will rest in the intelligent body of its people.

## PROCLAMATION ISSUED FOR THANKSGIVING DAY

### Gov. Hyde Follows Reverent Custom Of Missouri Forefathers

Jefferson City, Mo., November 20—A Thanksgiving proclamation was issued by Gov. Hyde Saturday, as follows:

Whereas, By the reverent custom of our forefathers, one day in each year has been set apart for, and dedicated to, public acknowledgement and thanksgiving to Almighty God for his many blessings and mercies to us as a people; and,

Whereas the President of the United States, Warren G. Harding, has officially designated and set apart Thursday, November 30, as a day of thanksgiving and devotion for the year 1922, and

Whereas, In common with the people of the other states of the Union, the people of this state have been blessed with bountiful crops, with riches of natural resource and wealth of material possession. During the past year no war has disturbed us. No pestilence has afflicted us. No national disaster has overwhelmed us. Peace and plenty surrounded us. It is, therefore, appropriate that, for one day, we lay aside our daily tasks, humbly and reverently, to give thanks to our Creator and Supreme Ruler for that he has showered upon us blessings and preserved us as a people.

Now, therefore, I, Arthur M. Hyde, Governor of the State of Missouri, acting in conjunction with the President of the United States, do hereby set aside Thursday, November 30, 1922, as Thanksgiving Day, and I earnestly urge the people of the State of Missouri to repair to their altars of worship and there render thanks to Almighty God for his unfailing bounty. It is also appropriate that, having rendered thanks for our material blessings and possessions, each of us should give thought to the condition of unrest and of class consciousness which is ominously growing among our people and highly resolve that, through the regeneration of our own hearts, we shall diligently and patriotically labor during the ensuing year for a broader justice and fraternity among all citizens of our state and nation.

# A Community Asset

A lyceum course is an important institution in every community in that it furnishes high class entertainment and offers educational opportunities that often can not be obtained by the small town in any other way. The lyceum in winter corresponds to the chautauqua in summer, and the smaller towns and cities can ill afford to do without either of them.

Maryville needs both and should continue to be served by both each year. But Maryville must SUPPORT the lyceum if it is to remain a part of the community life. Many people here support the chautauqua, but take no interest in the lyceum.

The Redpath-Horner Lyceum Bureau of Kansas City is furnishing the talent for the five-numbered course sponsored by the Oxford Class of the First Methodist Episcopal Church this year. The following are the numbers:

## Maud Ballington Booth Lecturer TONIGHT

Everett Kemp, monologist, Dec. 18.

Maitland Entertainers, musical, Jan. 8.

"The Bubble," a play in three acts, Feb. 12.

The Barnabys, musical entertainers, March 12.

This course is brought here by the Oxford Class to serve ALL of Maryville. Therefore, ALL Maryville should support it.

The first number will be TONIGHT, when MAUD BALLINGTON BOOTH, world-famed lecturer and organizer of the Volunteer Prison League, will speak at the First M. E. Church, at 7:45 o'clock.

Buy your season tickets TODAY. Adults $2.00, students $1.00. Tickets may be obtained from members of the Oxford Class or at the Price Furniture Store. Single admission 50 cents.

## PHONY GLOBE TROTTER LEARNS BITTER LESSON

Paris, Nov. 20—A "second time over" American tourist was ready to start home. A friend noted the conspicuous absence of labels and tags on his traveling bags.

"Last season I fell for the assorted labels, at 25 cents a pack, supplied by a tourist agency," he said. "When I reached Hoboken I noticed seasonable globe trotters with neat, unplastered bags, comfortably walking past customs inspectors, while I spent much time and some money explaining that I hadn't been around the world and hadn't collected a lot of dutiable stuff. Not for me—I'll let the folks at home guess how much ground I've covered."

### CODE MEET FINANCE LOW

An Appropriation Will Be Necessary After December 1

Jefferson City, Nov. 20—Report of the committee on expenditures of the constitutional convention filed with that body Saturday, as of date of November 15, shows that a total of approximately $275,000 of the $300,000 appropriated, has been spent. This will leave enough probably to meet the next bimonthly payroll December 1, and then there will have to be another appropriation, as there is no much probability of the convention adjourning or taking a recess before the Christmas holidays.

### Produce Review

The butter market has shown a stronger tone during the week bringing about an increase in country prices for butterfat. The Chicago market for standards was 32½ cents on August 1, and 45 cents on November 16, making the market nearly 40 per cent higher than on the earlier date.

The market rests on a solid foundation of broad demand from consuming trade, which has made these higher prices possible.

It is not expected that foreign butter will be much of a factor in influencing domestic prices, unless the market should work higher.

Quality of butter manufactured would be better if more cars and attention were given to the handling and if there were more frequent deliveries of cream.

Fresh eggs are in light supply and prices are working higher for really fine stock. Storage eggs are selling at better prices, but stocks are larger than last year.

Poultry movement, due to better weather conditions for marketing, has increased, and prices are generally unchanged throughout the producing territory.
